

## Congratulations and Welcome Aboard!

You have already made the difficult decision to step out on your own and to meet the challenge of mastering your own destiny. Today is truly the first day of the rest of your life! From this moment on you make the decisions regarding what you do and when. No longer are you tied to a job that can wear you down in your prime.

As an Independent Contractor of DentedWeb.com you are in the driver's seat. You choose when and how much you work. You choose how much you make. You choose how much time you spend with your family. And you do all this with the money you make, right from the comfort of your own home!

Included in this package, you will find a copy of our basic Commission Structure. The numbers will astound you. But, I assure you they are quite obtainable. Let me share with you a true story, if I may.

The day I started this company, in passing I mentioned to a few people that I was willing to offer them 20% commission on any website referral that resulted in an actual sale.

That week my mailman gave me the phone number of a woman who wanted some web work. Her bill came to \$2,283.91 of which I gave my mailman 20%. That netted him \$456.78.

My neighbor offered to make a few cold calls to businesses in the yellow pages. After only a few days on the phone, she found 2 people who wanted websites. The first was a \$500.00 web site, and the second was a \$3,000.00.

That netted her \$700.00 for less than a week's worth of work. She told me that was more than she was making for 40 hours of work on a horrible dead end job where her supervisor was unfair and often cruel. She has been working full-time at home ever since!

Today, she spends approximately 2 days for 3 days on the phone and about 4 hours per day. The rest of the time she prefers to spend with her grandchildren and making homemade crafts.

Before long, more and more leads were coming in and more and more people were getting the 20% referral fee. Soon, we realized this is an opportunity many more people would like to have. So, we decided to extend an invitation it to those who qualify and to give them the tools that would help make them successful.

Here you have the opportunity to work in the comfort of your own home. You won't spend gas money to go to work, or have to deal with unfair supervisors. You are your own boss and you make as much money as you want or need to make.

DentedWeb offers this opportunity to those who are willing to do the work, but who want to make working a more simple process. Life simply should not be that difficult. People should be able to make a fair dollar for fair work and not have to suffer because of it. But, in this day and age the only way you can do that is to work for yourself. We at DentedWeb.com are proud and honored to have you come aboard as an Independent Contractor. We look forward to celebrating your success with you in the very near future!
